The Companhia de Diamantes de Angola purchased laboratory crushers, parts and accessories [redacted] Information received states that the government geological department is going to use a portable laboratory to be carried in the field for exploration of minerals in Angola. This is the first order [redacted] by this company and it is the first indication that mineral exploration is to be stepped up in the country. A gasoline engine and accessories were also purchased indicating that the tests are to be carried out in the field.
